

A dynamic, flowing golden liquid forms a large, elegant arch that frames the central text. The liquid has a highly reflective, metallic sheen, with bright highlights and deep shadows that create a sense of movement and depth. The background is a soft, light beige gradient, which makes the golden arch stand out prominently. The overall composition is clean, modern, and luxurious.

MegaGold

Why MegaGold?

Naturally Sourced Ingredients

Sourced from fresh, wild small fish off the coast of Peru, selected for quality and consistency.

Science-Led Formulations

Each formulation is developed with a research-driven approach, with thoughtful ingredient selection and composition design.

EPA at the Core

Our formulations are built around EPA, with carefully considered EPA-to-DHA ratios designed to align with targeted nutritional need.

Quality You Can Trust

Manufactured in the U.S. with advanced processing standards and third-party tested for purity and potency.

3rd GENERATION FISH OIL

A TECHNOLOGICAL LEAP

1st GENERATION FISH OIL

THE EMERGENCE OF TG 20-30% FISH OIL

In the 1970s, fish oil emerged as a health supplement in its natural triglyceride (TG) form, with omega-3 concentrations around 20-30%. It offered basic support for heart and brain health.

2nd GENERATION FISH OIL

THE SHIFT TO HIGH-CONCENTRATION FISH OIL

As clinical needs grew, high-concentration fish oil with 80-90% omega-3 became standard for medical use, providing more potent and consistent results.

The development of supercritical fluid chromatography in 2020 enabled the production of ultra-pure EPA fish oil by removing contaminants and increasing EPA concentrations to over 90%. This marked a significant advancement in addressing both safety and efficacy concerns.

EPA1000 Pro Plus D3 and K2

Over 96.5% EPA and up to 99% Omega-3 Concentration

Triple-action support from 3rd-generation fish oil for cardiovascular and immune health.*

- 1 Supports Cardiovascular Health*
- 2 Supports a Healthy Mood*
- 3 Supports Immune Health*

Utilizing patented **kd-Pür®** technology, we deliver high concentration EPA through solvent-free, oxygen-free and low-temperature processing. This advanced formula further minimizes DHA content to focus on targeted EPA benefits for blood lipid level support.

Vitamins D3 and K2 support healthy calcium metabolism, vascular flexibility, and bone integrity.*

EPA is associated with enhanced neurotransmitter activity (dopamine and serotonin), which may support emotional well-being.*

Together with vitamins D3 and K2, the formula helps maintain immune system balance and supports overall brain and body wellness.*

Suggested Use

For adults, take 2 softgels daily with a meal. For additional support recommended by a qualified healthcare professional, the dose can be doubled.

EPA1000 Fish Oil

Over 90% EPA and up to 99% Omega-3 Concentration

The 3rd-generation fish oil for cardiovascular and cognitive support.*

- 1 Supports Cardiovascular Health*
- 2 Supports a Healthy Mood*
- 3 Supports Cognitive Function*

Produced with patented **kd-Pür®** technology—Supercritical Fluid Extraction (SFE) and Supercritical Fluid Chromatography (SFC)—to achieve exceptionally high EPA concentration with minimal contaminants. The low-temperature, oxygen-free process ensures purity, stability, and sustainability.

Unlike conventional fish oils that contains DHA—which may raise Low-Density Lipoprotein Cholesterol (LDL-C), Pure EPA maintains healthy lipid profile without significantly increasing LDL-C levels.*

The level of EPA in human body is related to the brains ability to increase the neurotransmission of dopamine and serotonin.* Studies suggest higher EPA intake may contribute to emotional well-being.* Its anti-inflammatory properties also support nerve health.* High level of EPA can also maintain a healthy mood by supporting inflammatory response and nerve health. *

Suggested Use

For adults, take 2 softgels daily with a meal. For additional support recommended by a qualified healthcare professional, the dose can be doubled.

E-Q10 SOL CoQ10

Water soluble coenzyme Q10 with EPA to enhance absorption to support heart health and cellular energy production.*

1 Synergistic Heart Support* with EPA and CoQ10

2 Absorption Technology

Coenzyme Q10 is fat-soluble but low water solubility, resulting in poor absorption in human body. This innovative self-emulsifying technology transforms coenzyme Q10 into microemulsion droplets which become water-soluble, increasing bioavailability by 4 times.⁽¹⁾ The effects persist for up to 72 hours.⁽¹⁾

Combining 80% high concentrated EPA fish oil with CoQ10 not only enhances CoQ10s emulsification and absorption but also supports healthy lipid levels for comprehensive cardiovascular wellness.*

CoQ10 supports energy production by promoting ATP synthesis and acting as an antioxidant, helping maintain healthy energy metabolism. It also supports immune function, exercise endurance, and overall metabolic health.*

Suggested Use

For adults, take 1 softgels daily with a meal.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

E-Joint Complex

Advanced Joint Support Formula with ApresFlex® Boswellia Serrata

- 1 Shows Improved Joint Comfort in as Few as 5 Days*†
- 2 Supports Joint Function*

E-Joint Complex features a unique blend of key ingredients designed to comprehensively support joint health.* Formulated with ApresFlex® Boswellia serrata extract, EPA from fish oil, quercetin, and gingerol, this formula helps promote mobility, joint function, and comfort.*

Clinically Studied ApresFlex®

†In a randomized, double-blind study, 67 adults took 50 mg of ApresFlex® or a placebo twice daily. Those taking ApresFlex® had improvements in joint stiffness, comfort, and function (WOMAC) that were 5, 7, and 43 times greater vs. the placebo group after 30 days. Improvements were seen as early as 5 days.

Key Ingredients & Their Benefits

ApresFlex® (Boswellia serrata) Extract – Standardized to 20% AKBA, a bioactive compound clinically shown to support joint comfort and function.

EPA (200 mg from Fish Oil) – Helps maintain a healthy inflammatory response to support joint mobility.*

Quercetin (200 mg) – A flavonoid with antioxidant properties that helps protect joints from oxidative stress.*

Ginger Extract (160 mg, std. to 5% Gingerols) – Traditionally used to support joint comfort and flexibility.*

Suggested Use

For adults, take one softgel twice a day with meals.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

ApresFlex® is a registered trademark of PLT Health Solutions-Laila Nutraceuticals LLC.

AprèsFlex®

E-Detox Complex

Unique formulation with 3 patented ingredients for liver health.*

- 1 Supports Liver Detoxification Process*
- 2 Supports a Healthy Metabolism*
- 3 Maintains Healthy Liver Function*

We use 10 ingredients to support liver detoxification, including three patented ingredients—Siliphos® and Curcumin C3 Complex® and BioPerine®.

Siliphos® is silybin formulated with Indena's Phytosome® technology, designed to support healthy liver function and natural detoxification by optimizing silybin absorption.* 80% concentration EPA fish oil also helps support the liver, enhances its detoxifying properties, and exhibits powerful antioxidant activity.*

Suggested Use

For adults, take 1-2 softgels daily with a meal. For additional support, the dosage can be doubled unless recommended by healthcare professionals.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

DHA1000 MINI Fish Oil

The 3rd-generation high-concentration DHA fish oil with lemon flavor.

Over 80% DHA and up to 98% Omega-3 concentration

- 1 Helps Support Brain Function*
- 2 Helps Support Visual Function*

DHA is a major structural component of the brain and retina, essential for cognitive development in children and for maintaining brain and visual function in adults. * Adequate DHA intake plays a vital role in supporting lifelong brain performance and eye health.

Sourced from high-quality deep-sea fish and purified using advanced technology, DHA1000 MINI delivers 1000 mg of DHA per serving with over 80% purity.

The easy-to-swallow small softgel is ideal for all age groups, including children and seniors. With natural lemon flavor and no fishy aftertaste, DHA1000 MINI offers a refreshing and enjoyable taste.

Suggested Use

For 4 years and older, take 1 to 4 softgels with a meal daily. Softgels can be chewed or swallowed.

MACULAR Support

Formulated with nutritional blends backed by clinical research.*

- 1 Help Support Healthy Vision*
- 2 Help Improve Visual Acuity*
- 3 Lutein and Zeaxanthin from Lutemax® 2020

MACULAR Support contains the exact levels of five nutrients recommended by the National Eye Institute to help reduce the risk of progression in people with moderate to advanced Age-related Macular Degeneration (AMD)*. Premium supplement formulated with Vitamin C, Vitamin E, Zinc, Lutein and Zeaxanthin, Low in zinc and no copper for an easy to swallow and digest.

Lutein and zeaxanthin support visual acuity* by filtering harmful blue light and reducing oxidative stress in the retina, which helps maintain sharp and clear vision.* Astaxanthin also improves blood flow to the eyes, reduces eye fatigue, and may enhance contrast sensitivity and depth perception, supporting sharper vision.*

This patented ingredients provide all three key macular carotenoids—lutein, RR-zeaxanthin, and meso-zeaxanthin. Lutein and zeaxanthin in a clinically supported 5:1 ratio is delivered in smaller molecular size, allowing for more efficient absorption and better utilization by the body.

Suggested Use

For adults, take 2 softgels daily with a meal.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
